

Multicorer Coring & dividing machine

for
coring and/or
dividing
lettuce, cabbage,
peppers

The Multicorer cores salads and cabbage in a fast and neatly way and divides products into 2 or 4 segments, if required.
The Multicorer is available as a 2- or 4-lanes machine.

Highest throughput and minimal waste. Compared with conventional processes, the Multicorer allows an increase of productivity of up to 300 % and reduces the waste rate considerably at the same time.

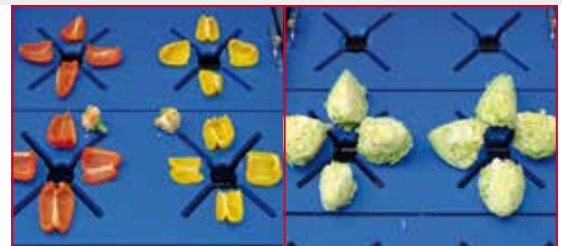

The product will be placed manually on the insert plates and automatically transported for segmenting, coring and sorting.
Optionally, infeed and outfeed belts as well as waste belts are available.

The product will be cut into 2 or 4 segments and the core will be removed in a conical shape (standard diameter 45 or 55 mm) for optimizing the waste rate. The Multicorer can also core only - without dividing with a specific coring-only-tool (multi leaf salads, frisee, endive, etc.)

The machine can easily be adjusted according to the specific application and product requirements in regards of product and core sizes. Decoring height can be adjusted according to product height in order to optimize the cycle times for the product to be processed, e.g. iceberg lettuce, endive, Salanova®, lollo, cabbage, radicchio etc.

Fast locking devices enable quick and simple change of cutting cassettes without additional tools. Optional trolleys assure not only a simple change of tools but also safe and hygienic storage of the cutting cassettes.

The solid industrial machine is completely made of stainless steel AISI 304 and can easily be cleaned and maintained due to hinged doors and removable covers.

Technical specifications Multicorer 4-lanes:

Capacity (depending on product) e.g. cabbage: up to 2800 pcs / h	
e.g. Iceberg: up to 4800 pcs / h	
Voltage:	400 V, 50 Hz, 3 Ph
Electrical power:	5,2 kW
Infeed / feeding height:	955 / 1021 mm
Discharge / outfeed height:	664 mm
Width x length x height:	3568 x 2024 x 2447 mm
Weight:	1877 kg

cutting · washing · drying · peeling · dividing · mixing · packing

- **Belt cutting machines**
GS 10-2, GS 20, GS 25V
- **Slice and wedge cutters**
Tona S, Tona E, Tona S 180K
- **Special cutting and grid cutting machines**
Tona Rapid, Tona Rapid 3D, Tona Rapid XL, Multicorer, TT 450, Multislicer
- **Cube and strip cutter** KUJ V
- **Multi purpose cutting machine** KSM 100
- **Cabbage cutting machine** CAP 68
- **Cabbage corer** KSB
- **Dicing, wedging & shaping machine** PGW, HGW
- **Vegetable and salad washing equipment**
- **Spin-dryers and air blowing systems**
- **Peeling machines**
for citrus fruit, melons, apples, pineapples, potatoes, carrots, celeriac, etc.
- **Vertical flow packaging machines**
- **Special machines**
- **Complete production lines**

We develop and manufacture single and special machines as well as complete processing lines for the food processing industry.

KRONEN - smart solutions and convincing technology for the food processing industry!

We look forward to
your request!
